

To whom it may concern,

I am writing to you on behalf of my concern that my city may lose its local Air 1 station due to new LPFM stations taking priority over FM translator service. I just wanted to express to you how important the Air 1 station is to me. This station is always uplifting and encouraging and helps to get me through my day.

Not only does it get me through my day, but also many others that I know in my city would say the same. This is why I believe that losing the Air 1 station would have a negative effect on the local community. The service provided by Air 1 to the community is very important. The music is clean and a great alternative for our community's youth to listen to good wholesome music instead of all the other garbage offered out there on radio stations today. I personally work with the youth in my community and I cannot express enough the importance of a good wholesome station like Air 1. I ask that you would just think about all the good things that Air 1 is doing in my community and all the other communities that Air 1 has a translator in. Thank you very much for your time.
